Alto 1
2-stage single motor standing desk frame
HAFS121

Desktops sold separately

Features

Smooth height adjustment - no juddering

Simple, easy-to-use control panel

Anti-collision safety system senses change in the electrical current to the motor in the event of a collision. An additional sensor in the control box detects when the desk is not level. Either condition will cause the motor to stop and return 50mm in the opposite direction.
